

I am writing in regards to your plans to make changes to the broadcasting system. I am an active listener of KLOVE in Tucson. It is a blessing to be able to listen to that station for me and my family. They are positive, with uplifting messages for the family. No fowl language or nasty songs. I would be devastated, as I know many in my neighborhood and church would be also. They are concerned for the best interest of everyone, and try to provide the best service. Please keep this in mind when you are making your decisions. Thank you. Kim
